Planning Commission Agenda Item Report

FROM: Ryan Cummins

MEETING DATE: 10-20-22

SUBJECT: 2023 Priorities

DESCRIPTION:

Vice-Chair Manns is requesting that the Planning Commission have a discussion about priorities for 2023.

In January 2022, the Planning Commission discussed the following goals for 2022 and 2023:

1. Continued Improvement of the Zoning Ordinance
 - a. Progress:
 - i. The Planning Commission began reviewing some possible ordinance amendments. A public hearing was scheduled but postponed.
 - ii. The Planning Consultant (David Jirousek) has made a recommendation to staff to do a comprehensive review for potential changes.
2. Master Plan Review/Development
 - a. Progress
 - i. The Planning Commission heard a presentation from the Planning Consultant about Master Plan reviews and updates.
 - ii. The Planning Commission selected Commissioner Gaunt as their representative for an updated Tri-Community Master Plan.
3. Increasing Citizen Participation in the Planning Process
 - a. Progress
 - i. The Planning Commission was provided with techniques to gather public input by the Planning Consultant.
4. Identifying Planning Commissioner Education and Training Opportunities
 - a. Progress
 - i. The Planning Commission was advised of the Citizen Planner Program through MSU Extension.

It is recommended that the Planning Commission discuss progress towards the current goals, what they desire to remain a priority for 2023 and next steps.

Additional items that could also be considered as a priority include:

A. Short Term Rentals

- In July, the Planning Commission discussed the need to have short term rentals be a part of the master plan discussion.
- Michigan House Bill 4722 passed in the house and is awaiting a full senate vote. At the suggestion of City Council, staff has reached out to the Michigan Municipal League to provide a presentation to both the City Council and Planning Commission.

B. Fee In Lieu of Parking

- Staff understands that the city previously had a fee in lieu of parking for developments that did not provide off-street parking. If these fees were reimplemented, they could be used to support public parking infrastructure and increased public transportation offerings.
